

Mondelez UK recalls Cadbury Dairy Milk Little Robins because of undeclared almonds

Mondelez UK is recalling Cadbury Dairy Milk Little Robins because some packs contain almonds (nuts) which are not mentioned on the label. The product has been incorrectly packed with Cadbury Dairy Milk Little Robins Daim Chocolate. This means the product is a possible health risk for anyone with an allergy to nuts.

Product details

Cadbury Dairy Milk Little Robins

Pack size 93g

Risk statement

Allergen(s): Nuts (almonds)

This product contains almonds (nuts) making it a possible health risk for anyone with an allergy to nuts.

Action taken by the company

Mondelez UK is recalling the above product from customers and has contacted the relevant allergy support organisations, which will tell their members about the recall. The company has also issued a point-of-sale notice to its customers. This notice explains to customers why the product is being recalled and tell them what to do if they have bought the product. Please see the attached notice.

Our advice to consumers

If you have bought this product and have an allergy to nuts, do not eat it. Instead return it to the store from where it was bought for a full refund or contact the Mondelez consumer care line on

0800 818181.

About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
